## Heat Pump Installation

I, \_\_\_\_\_ residing at \_\_\_\_\_ acknowledge the following regarding the installation of a heat pump system in my home:

**1.** Overall energy cost reductions are not guaranteed, and my energy bills may increase following the installation of a heat pump system. Energy costs depend on a variety of factors, including usage, annual temperature variations, and how well my home is insulated/air sealed. I understand my energy bills may increase; however, I choose to have a heat pump system installed for one or more of the following reasons (please initial all that apply):

\_\_\_\_\_ My home does not have pre-existing full house air conditioning and adding full house air conditioning could add extra utility expenses.

\_\_\_\_\_ A heat pump would alleviate a health and safety concern in my home.

\_\_\_\_\_ I'm interested in having a heating system with a low carbon footprint.

\_\_\_\_\_ Other: \_\_\_\_\_

**2.** If I receive bill payment assistance through my utility or the Home Energy Assistance Program (HEAP), the shift in primary heating fuel source from a fossil fuel to electric may impact the level of bill payment assistance received. I will notify my utility and county Department of Social Services that I have installed a heat pump and have changed my primary fuel to electricity.

**3.** Heat pumps operate differently from traditional boilers and forced air furnaces. In order to maintain comfort in my home I may have to learn how to operate my thermostat differently. I understand that my HVAC contractor will instruct me in the proper use of the heat pump and its thermostat.
